Ms. Mary Beckman

The White House

Dear Ms. Beckman:

On 12 April 1977 Admiral Turner, Director of Central Intelligence, gave a Cabinet Family presentation in the Family Theater in the East Wing. He was assisted by several officers from CIA who manned the displays he used. The White House photographer took pictures of President Carter, Admiral Turner and others viewing the displays.

We would appreciate one complete set of photos taken that evening plus sufficient extras of those photographs showing individuals other than President Carter and Admiral Turner to distribute to those who participated.

If you have any questions or need someone to review the contact prints to determine which photos are desired in what quantity, please contact me at [redacted].

Please forward the photographs to me in care of Executive Registry, CIA.
